

Janet Hagopian

Candidate Statement

Vice-President

I am running for re-election as Vice-President for 2023-2025, serving the Board of Directors of Southwestern Archaeology, Inc. I have served in this position since 2017 and wish to continue in this capacity for another term. I have been a professional archaeologist for almost 40 years and have worked exclusively in the Southwest for over 30 years. I remember attending my first Pecos Conference in 1990 and have attended most years since then. The informal nature of the Conference attracts avocationalists, students, and professionals who share recent discoveries, stories, and lots of laughs. The Conference also nurtures professionalism and networking among these groups. The legacy of the Pecos Conference must continue, and I will work alongside the President and other board members to ensure that the organization remains on sound financial footing well into the future.
